

HEATED CHAMBERS

Special substances used in production often need to be additionally heated, melted or cooled down before they can be used in the production processes. These heated chambers have been specially designed for such applications.

Approval-No.: Z-38.5-122

Technical
Approval

DIBt Berlin

**Thermo / Cooling container
for 4 x 1000 liter KTC/IBC**

**Electric Heating / Cooling
chamber for drum storage**

The large number of different-sized heating chambers available guarantees the accommodation of differing storage amounts and container sizes. The heating and cooling capacities are calculated and realized to suit the requirements of the particular application.

**Heating / Cooling container
for 7 x 1000 liter KTC/IBC**

HEATED CHAMBERS

Electric heating chamber for storing drums or KTCs / IBCs

Approval-No.: Z-38.5-122

U General Technical Approval
DIBt Berlin

- ◆ Storage temperature 50°C
- ◆ Convection heating
- ◆ Hinged doors

Actual value internal temperature display

Thermal insulated water protection compartment container with separate technical room

Electric heating chamber for 12 x 200 liter drums

Electric heating / cooling chamber for storing drums and small containers
